OBJECTION to Planning Application Number 2006/2047, Devonshire Road & Balfour Road, Weybridge

I am writing on behalf of Portmore Park and District Residents Association to express our objections to planning application number 2006/2047 for the redevelopment this part of Devonshire Road & Balfour Road, Weybridge.

Our association committee is strongly opposed to this application.

The application proposes an overly dense development, with a very large mass of buildings which is inappropriate for this prominent site and out of keeping with the surroundings.

This is a significant and highly visible site, adjacent to a conservation area. It deserves a smaller scale, higher quality design that fits into the setting.

Residents would be shocked to see a development like this allowed, particularly when there are suggestions that the conservation area may be extended. We trust you will do the right thing, and refuse consent.

Yours sincerely

Miles Macleod
(Chair, Portmore Park and District Residents Association)
